

How to Make a Candy Cane from Pipe Cleaners

What you need:

- 1 white pipe cleaner about 6" long
- 1 red pipe cleaner about 6" long

1. Put the pipe cleaners side by side.

2. Twist them together 7 or 8 times.

3. Bend one end into a hook to make the letter J.

Variations: You can use longer pipe cleaners (I cut a 12" one in half) or you can put several pipe cleaners together to make a thicker Candy Cane.

Use them to decorate your tree or house or gifts.
